VISIT INFORMATION

SELLAFIELD CENTRE OF EXCELLENCE

The focus of this workshop is on **'How to deliver Innovation in Big Industry'**.

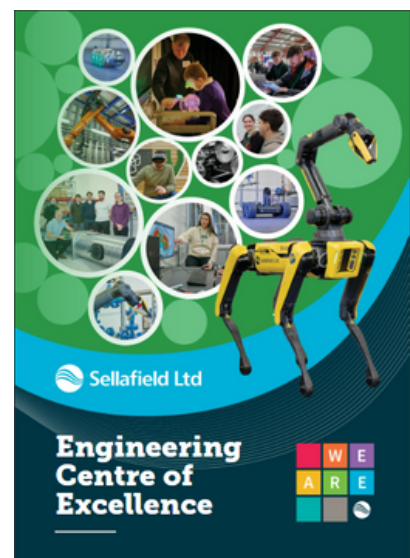

Sellafield is at the forefront of solving global nuclear industry challenges. They are challenging people to think about what is the art of possible with a core focus on engineering problem solving. At the Centre of Excellence in Cumbria they are achieving world-first innovations, all with a can-do attitude, backed by a willingness to collaborate and a determination to succeed.

The facility carries out many areas of development of personnel and rapid development of solutions to technical problems. The facility is a multi-discipline organisation with most areas of engineering aspects of the site represented, specialising in:

- Unmanned Aerial Vehicles (UAVs)
- Remote Operated Vehicles (ROVs) and Robots
- Low Voltage Electrical Solutions
- Control Systems
- Radiometrics
- Civil Engineering

The team will share with visitors how they introduce innovation and develop bespoke solutions both for the Sellafield Sites but also within its supply chain.

ABOUT ONSITE INSIGHTS

- The program exists to encourage the sharing of innovation and best practice between organisations.
- It achieves this through a series of one day visits to organisations - No theory, no text books, just what works and why.
- Established in 1983 by the Department of Trade & Industry as a program to encourage the sharing of ideas between organisations; it became a commercial enterprise in 2004 under the name Onsite Insights. Onsite Insights joined S A Partners in 2018.
