VISIT INFORMATION

NHS Blood and Transplant Manchester

NHS Blood & Transplant employs over 5,000 people in over 200 locations across the UK. This remarkable organisation provides a blood and transplantation service to the NHS, looking after blood donation services in England and transplant services across the UK. This includes managing the donation, storage and transplantation of blood, organs, tissues, bone marrow and stem cells, and researching new treatments and processes.

Manufacturing operations have been transformed in recent years and manufacturing and testing sites have been consolidated. A new, integrated supply chain approach has helped balance supply and demand.

- Understand the NHS Blood & Transplant Continuous Improvement journey that has been supported by lean principles.
-
- See first-hand how processes have been improved in different settings of manufacturing, laboratory and support functions using continuous improvement principles.
-
- Understand how continuous improvement functions are responding to business needs and cultural challenges.
-
- Understand how the organisation's external partnerships and exchange forums contribute to the continuation and development of best practice.

ABOUT ONSITE INSIGHTS

- The program exists to encourage the sharing of innovation and best practice between organisations.
- It achieves this through a series of one day visits to organisations - No theory, no text books, just what works and why.
- Established in 1983 by the Department of Trade & Industry as a program to encourage the sharing of ideas between organisations; it became a commercial enterprise in 2004 under the name Onsite Insights. Onsite Insights joined S A Partners in 2018.
